

*ROTATING RIGHT*

**EXPENDABLES &  
REPAIR PARTS**

## **Plunger Pump Expendables**

Rotating Right Inc. offers a full line of OEM and non-OEM fluid end expendables and power end components for all major manufacturers plunger pumps.

# Expendables & Replacement Parts

Rotating Right stocks over \$600,000 in expendable and repair parts for Multiplex Plunger and Progressing Cavity Pumps. We stock plungers, packing, brass, valves, bearings, crankshafts, connecting rods and seals for plunger pumps. We stock rotors, stators, packing and seals for progressing cavity pumps.

If we don't have it locally, we have contacts all over North America to get you that part when you need it, not when the plant can deliver it. We go out of our way to locate equipment and parts for our customers.
